

Mentors Make Us Grow

by: Linda Bottom, WEA Membership Specialist - lbottom@wyoea.org

A mentor is someone whose hindsight can become your foresight.

Why Become A Mentor:

The WEA Membership Committee is committed to growing our Association and working together to increase our voice in Wyoming. What better way than to mentor our new members. Show them the ropes, get them involved, and gain some knowledge along the way.

How Can I Become A Mentor:

Be practical, your value comes from having life and field experiences. Be open in your communication and share your knowledge and experience without any apprehension. Relate your set of skills through years of experience and translate this to applicable insights. Be committed to be available and respond to requests and questions. Mentors are supportive and uplifting. Show you care of the progress of those you take under your wing. Be a good role model. Invite new educators to WEA events and show them the ropes.

- M** - Motivates you to accomplish more than you think you can.
- E** - Expects the best of you.
- N** - Never gives up on you or lets you give up on yourself.
- T** - Tells you the truth, even when it hurts.
- O** - Organize, teaches you how to organize your peers.
- R** - Really cares about you and your success.

Visit www.wyoea.org and register as a mentor.

Share your success with us!!
